EVERYTHING YOU NEED TO GET THE JOB DONE RIGHT

Fully assembled and ready to install

More than 560 SKUs available

- Limited Lifetime Warranty
- Reinforced welded brackets designed to withstand harsh road conditions
- Mirror-finished, hard chrome piston rods that inhibit corrosion, eliminate dirt and debris build-up that can cause premature seal failure
- Fuchs Oil ensures longer seal life and consistent viscosity over a wide range of temperatures
- Coil spring material 55CrSi for lasting durability
- Extensive SKU coverage for import, domestic and European car and truck applications

AUTOPART INTERNATIONAL CHECKS ALL THE BOXES

- ✓ Deep Import + Domestic Coverage
- ✓ First to Market Late Model Applications
- ✓ Best Local Parts Partner
- ✓ **Complete Ride Control Solution**

Pro-STRUT™ RESTORING ORIGINAL RIDE FEEL EFFECTIVELY

When the time comes to replace worn struts on your customer's vehicle, there are many options on the market. Most Professional Service Providers are opting for complete strut assemblies. These assemblies are made from 100% new components. Includes strut, strut mount, coil spring, boot, bump stop and mounting hardware.

The main reason service professionals are choosing complete strut assemblies is the advantage in installation time. Quicker service bay turnaround time is valuable to the shop owner as well as the vehicle's owner.

Another advantage of complete strut assemblies is that the shop can now have the ability to assign the job to a less experienced technician. No need to use a dangerous spring compressor.

Replacing the complete assembly allows worn components to be upgraded as well, such as the strut mount and coil spring.

Autopart International offers over 560 unique SKUs for foreign and domestic vehicles. All Pro-STRUTS™ are a great solution to restore the customer's vehicle to like-new ride feel.
