AUTEL® DIAGNOSTIC TOOLS

MaxiSys Elite

- The MaxiSys Elite – the newest addition to the MaxiSys line of highly advanced smart diagnostic tools – is based on the fast and intuitive Android operating system
- Rapidly performs every job – from comprehensive vehicle diagnostics and analysis to advanced ECU programming
- Provides extended battery life and intelligent power saving
- Offers a super-sensitive capacitive screen able to respond to gloved, moistened, and even greasy fingers!
- Ergonomically-angled docking station provides optimum visibility and convenient charging that eliminates power concerns

MaxiSys MS906TS

- MaxiSys MS906TS is the latest addition to the MaxiSys product line of advanced wireless diagnostic devices integrated with the TPMS antenna module
- Based on the Android operating system with the best possible coverage of OE level diagnostics and TPMS integration
- Utilizes the powerful Exynos 5260 6core processor (1.3 GHz quadcore ARM CortexA7 + 1.7 GHz dualcore ARM CortexA15), an 8" capacitive HD touch screen, and long distance wireless communication to efficiently provide comprehensive vehicle diagnostics and analysis along with universal TPMS solutions

MaxiCheck MX808TS

- Together with the ability to quickly read and clear DTCs for all available modules of the majority of the makes and models on the market, MaxiCheck MX808TS provides you with superior special functions, including Oil Reset, EPB (Electronic Parking Brake), SAS (Steering Angle Sensor), BMS (Battery Management System), DPF (Diesel Particulate Filter) and IMMO
- In addition to OBD II diagnostics and special service, MX808TS enables you to carry out complete TPMS functions, including TPMS health check, sensor activation & programming and TPMS relearn
